Vol. 34, No. 41. CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA. FRIDAY, APRIL 13, 1928

California Ranch News

Completing a survey of the orchards of Sonoma county following the recent storm, County Horticultural Comcissioner O. E. Bremner announced a few days ago that practically no damage had been done to the fruit buds and blossoms and that generally the rain had been most beneficial. Bremner predicts a heavy crop.

Some good homesteading land in the Three Rivers district east of Visalia in the lower Sierras has been thrown open to entry by the U. S. Land Office at Washington, according to word just received at Visalia. About one thousand acres are available as good land, the balance being grazing land for cattle.

Contracts were signed March 14, whereby the Hemet cannery of the California Co-operative Canneries, Inc. was sold to a group of Hemet peach growers for a consideration said to have been $100,000, this price including the buildings, grounds and equipment of the plant, one of the largest of its kind in Southern California.

Eric E. Eastman of Santa Ana has recently been named assistant farm adviser in Orange county, succeeding Raymond Ellis. Mr. Eastman was engaged in ranching in Arizona for a period of three years, and during the past year has been in the employ of the San Joaquin County Farm Bureau Cow-Testing Association, where he has been in close contact with the agricultural extension service. His work in Orange county will be particularly directed toward soil reclamation, field crops and junior agricultural club activities. He assumed his duties March 20.

Prospects are bright for the orange growers of Superior California this year. This is the message brought back from the East by J. L. Nagle, manager of the California Fruit Exchange, who has made two trips to eastern cities in the past month. "Prices for California oranges in the eastern markets are higher now than they have been in several years," said Nagle. "Another factor in the orange situation is that prospects are that the Valencia orange crop from Southern California, which will be in competition with oranges of the north later on, will be 30 per cent short of normal.

The Canners League of California is opposed to the proposal for a State government trade mark in marketing California farm and orchard products because the league does not want that competition which would be presented by a standardized product guaranteed by the State." This charge was made last week by Simon L. Lubin, president of the Sacramento Legion Citizens Council and leading sponsor of the trade mark plan. "The league," declared Lubin, "fears to put the truth on the labels of some of the products turned out by its members. On account of considerable poor merchandise sent out of the State to domestic and foreign markets, the league has not sufficient faith in the good name of California."

With the nineteenth annual picnic day at the University Farm at Davis, only three weeks away, preparations for the event are progressing at a rapid pace. On April 21st the student-body and faculty of the university will play host to between 20,000 and 30,000 persons and will endeavor to make a gala day for all. Entertainment will be featured on this occasion to the extent that everyone, agriculturally inclined and otherwise, will find some phase of the "eight-ring circus" to his or her immediate interest. Of course, picnic day will be an open house in all of the various divisions of the university and will provide an ideal opportunity for visitors to see for themselves just what type of work is being accomplished by the students as well as by the experimental departments.

On motion of Christian Ade, Yolo county grape grower, the thirty vineyardists who assembled at Woodland recently under the auspices of the California Grape Growers' Association to hear Edgar M. Sheehan and his secretary, H. F. Stoll, on the 1928 California grape situation, unanimously voted in favor of a standard label for California products. The grape growers of the county were a unit behind the grape growers' association, and urged the label for all No. 1 products, whether grapes or tomatoes.

Golden State
News of Interest to All

The State Government owns $31,796,000 worth of land, exclusive of State school lands held for disposition by the Surveyor General, according to an announcement by the Department of Finance. The State owns 76,085 acres outright and leases 6,023 acres in addition. The university of California with 22,337 acres, is the leading land holder among State agencies.

Due to what apparently is real competition among the tire companies, the State of California will save approximately $40,000 this year on her tire purchases as a result of favorable contracts awarded by State Purchasing Agent W. G. McMillin.

Mining men of all Northern California counties expressed satisfaction a few days ago over the announcement of Fred Stevenot, director of natural resources, that a branch of the State Mining Bureau would be established in Redding. All business of the mining division for Shasta, Trinity, Siskiyou and Modoc counties will be transacted through the new office and a permanent exhibit of ores will be installed.

California's apostles of accident prevention are somewhat concerned over the upward trend of industrial mishaps in the Golden State. In the last four years these have increased from 500 to 800 a day and are still on the rise. "Consequently," said Will J. French, State director of industrial relations, "it reasonably may be expected that it will not be long until the dread 1,000-a-day mark will be reached, though such a figure is not a credit to a progessive State like the one in which we live."

Evidencing the large number of labor camps in various California industries, the State Immigration and Housing Commission recently announced that 1,994 of them were inspected by commission representatives during the last. The camps housed 93,863 workers.

Co-operation in working out a comprehensive, constructive plan for meeting needs of the adult blind was asked by the State government last week of all California agencies interested in the problem. Associations for the adult blind already have been formed in both Northern and Southern California. The State is now conducting a survey to determine the number of California adult blind in need of industrial training and of custodian care.

California's State traffic officer enforcement of the State motor vehicle laws pays its own way—and then some. George F. Moynahan, acting chief inspector of the division, has announced figures showing that delinquent fees collected by these officers and fines for which they were responsible exceeded the amount paid them in salaries during the past year by more than $43,000. The total salary roll for the year was announced by Moynahan as $640,412.86.

What its creators hope will be a "fool proof" airplane is under construction at the California institute of Technology at Pasadena. Dr. Robert A. Millikan, world famed scientist is head of this institution. The plane will embody radically new structural features, according to its designers, A. A. Merrill and Clark C. Millikan, of the institute's department of aeronautics. Its chief departure from the standard type will be a moveable lower wing. "This new plane will fly itself," Merrill said. "The pilot sets the wings for a certain speed and angle and it will never stall, unless he chooses to stall it.

Announcement has been made in Washington by Mayor General Edgar Jadwin, chief of engineers of the United States War Department, that the Sacramento, San Joaquin and Kern Rivers will receive $32,000 of the $1,500,000 made available for a general flood control study of all rivers in the United States. A. M. Barton, general manager of the State reclamation board, was advised by the United States district engineer's office in San Francisco a few days ago that the study on the Sacramento River will consist mostly of showing the feasibility of combining flood control, irrigation, power development and navigation protection into a single project.

Flour purchased by the State for its institution for the new quarter cost $6.55 per barrel as against $6.09 for the last quarter, an increase of 8 per cent. State Purchasing Agent W. G. McMillin, who made this announcement last week, declared the price of flour usually goes up about this season of the year. Rice prices for the new quarter were low, the State contracting for this food at $.0362 a pound as against 4⅛ cents for the last quarter. The price of sugar was practically the same, 5½ cents per pound.

CHAMBER OF COM. HEARS PAVING PLANS

With Vice-President T. A. Cutting presiding, the Chamber of Commerce held its regular meeting at the Community Hall Monday evening.

The highway committee reported that the corners of the old Los Gatos road at Campbell avenue intersection are to be rounded in readiness for the paving of that road in the near future. Plans are also on foot to pave a portion of North Central avenue. from curb to curb beginning at Campbell avenue.

This will be done by the property owners.

The special radio committee reported that plans were being formulated to put a publicity program over the air in the near future using the Campbell popular Choral Society for the major portion of the musical part of the entertainment. When this program is given Campbell will get much first hand air-line publicity to points east of the Rockies.

G. LOGAN PAYNE TALKS OF WASHINGTON

Campbell Kiwanians were given a very entertaining talk on Washington, D. C., and its vicinity by G. Logan Payne, publisher of the San Jose News, at the Tuesday luncheon. Mr. Payne said that every man owed it to himself and especially to his children to see "Washington, the most beautiful city in the world." To us of the U. S. it is one of the most historical spots and the surrounding country is crowded with interesting sights.

One of the big events of Washington is the public reception of the President for which 1000 invitations are issued and residential Washington clamors for t bid. Guests are directed to arrive at one or another entrance. All are announced and introduced to the President and wife very formally even though they are most intimate friends.

Mr. Payne has been the house guest of Mr. and Mrs. Coolidge and gave some very interesting sidelights on this man, who apparently smiles but little yet sees and enjoys many of the comical commonplace things. Mrs. Coolidge is one of the best beloved ladies of the White House.

H. C. Smith was chairman of the day. J. R. McChesney of San Jose wil lspeak on "The Philippines" at Tuesday's meeting. Carl Field will direct the cup-bearer's wanderings.

Apricot Crop Is 50% Normal

MOUNTAIN VIEW, April 11.—From information gathered from many sources, and many persons, we conclude that there will be a fair crop of apricots in this vicinity, reports the Register-Leader. Probably 50 per cent of a normal crop.

Before the heavy rain at the end of March, packers had estimated that there would be practically a 100 per cent crop. In other words an average of five tons per acre. This estimate was for all of the Santa Clara valley. Had this great crop been permitted to mature naturally, the price inevitably would have been low. Thinning, if properly done, would have been very expensive, and if not properly done the fruit would have been of poor quality and small. Then there would have been the additional cost of irrigation, which the recent rains have made unnecessary.

The outlook now is for a fair crop of good quality which should bring to the grower a good price so that he will really profit from what he thought was a calamity.

As to the effects of the recent rains upon other fruits, it is still too early to form a reliable estimate.

SEA SCOUTS TOUR SAN FRANCISCO BAY

Last week the Campbell Sea Scout ship was taken on its first real long cruise.

Leaving Alviso at noon, Thursday, April 4, we set out for San Francisco. We had intended to start earlier but were delayed by a bent rudder. This first afternoon nothing of importance occured except that we hit some of the roughest weather any of us had seen. Some of us were hanging over the rail, hoping the boat would sink and end our misery. We cast anchor off the San Francisco freight yards. All was calm and peaceful throughout the night.

We arose at six o'clock to find that our gasoline stove was on the bum and that a heavy fog was bearing down from the south. A landing party was in order so we went ashore and cooked breakfast and repaired our tender, which had been damaged the day before.

Weighing anchor we set out for the bay proper. A heavy fog had settled down and we had to steer by compass. About six bells the fog lifted and we found we were following a very good course. We cast anchor and swam and ate lunch. We weighed anchor at about eight bells.

From this point on we began to make out the waterfront and shipping of both San Francisco and Oakland. Several large freighters were seen and then a small shark. The lookout next picked up the U. S. S. Saratoga, at anchor in of war row. This ship, by the way, has revolutionized naval warfare. With the speed of a cruiser and with its complement of fighting airplanes it is by far the most formidable ship alfoat. It would be hard to describe this ship, but it is the most peculiarly built ship to come out since the time of the Monitor.

We cruised around the Saratoga and the two battleships, West Virginia and Massachusetts for a while and then set out around Goat Island. Our motor stopped on us while two ferry boats and big freighter bore down on us.

One of the fellows swallowed his chewing gum and got out a life jacket to sit on as he was sure we were going straight down. We emerged from this situation without being in any danger at all. We rounded Goat Island and headed for the Oakland estuary. The Coast Guard Cutter Swift passed us at this point. We passed another cutter but could not make out her name.

In the estuary there are all the sights of the waterfront. We saw huge steamers in drydock and in various stages of being built. The most interesting sights were the huge square rigged ships. These ranged from the modern steel hulled Alaskan Fisheries boats to the old clipper ships of the '49 days. To anyone but an old-timer these ships with their towering masts and mazes of ropes and cordage appear to be in utmost confusion. There are a hundred and one ropes, each with a specific name.

We passed what is evidently a Coast Guard headquarters and there, swinging at anchor, amid a swarm of small cutters, rode the most famous ship on this coast, the U. S. C. G. C. Bear. This ship was built in 1879 and has since made over 30 trips to the cold waters of the North Pacific. She was the law of Alaskan waters. Many a marooned seaman or treacherous fur sealer has known the Bear to his joy or sorrow, depending upon his obedience to the U. S. laws. The Bear has made its last voyage, however, and though a new cutter takes the Northern trip this year there are hundreds of men in the North who will never forget her.

Passing this beautiful old ship, we saw a racing schooner with her white canvas furled but one

(Continued on Page Three)

GRANGE CELEBRATES SILVER ANNIVERSARY

Twenty-three Initiates Take Degrees

Mr. W. E. Spears of San Francisco spoke before the grange Tuesday evening on Equalization of Taxes. He is the representative of an organization working for a more equitable method of taxation and gave a very interesting talk on what the organization had done in other counties bringing about a more just assesment of property which he claimed was an advantage to the farmers.

A large delegation of members of the Morgan Hill grange were present. Their Master, Mr. Lovejoy, took the chair while their drill team composed of 8 men and 8 women all dressed in white, with blue and yellow sashes, conducted a large class of candidates through the first and second degrees in a most creditable manner and received high praise from the 125 members present. Their floor work was especially fine and everything was done in the most perfect order.

The following 23 candidates are joining the grange at this time: J. Stanley Van Deursen, Jessie L. Lewis, F. K. Bartholomew, Hattie F. Bartholomew, Max F. Bartholomew, Harry G. Mitchell, Kate F. Mitchell, H. Carson, Mrs. N. Carson, H. W. Shadle, Katherine N. Shadle, James O. McKinney, Opal H. McKinney, Chas. W. Caneen, Francis Caneen, Geo. W. Wright, Mrs. Avis E. Wright, Charles J. Gaiser, Mrs. Helen Gaiser, C. A. Nelson, Mrs. C. A. Nelson, Mervyn S. Keesling, Mrs. Leone Keesling.

The matter of the sanitary district was brought up by Stanley Smith and referred to the legislative committee to report on later. It was announced that Pomona Grange would meet in Campbell on the third Saturday in May.

The decorations of the hall were beautifully arranged by the lecturer, Mrs. McChesney, and consisted of Lilacs, Wigelia, Calla lilies, tulips, and that most beautiful of all roses, the Bell of Portugal, in great profusion. After the exercises were over all marched to the banquet hall and partook of cake and coffee including a grange birthday cake this being the 25th anniversary of the Orchard City Grange.

DR. DE VOSS TALKS AT P-T A. MEET

Mr. De Voss of the State Teachers College spoke last night to an interested group of parents fromthe Campbell Grammar and High Schools at the Campbell Grammar School. As the evening program began with musical selections by the girls and boys glee clubs, Dr. De Voss took his cue from the boys' song of 'Duna,' an expression of a boy's longing fo rthe sea and ships, youth's need of romantic adventure.

"Life should be an adventure and so should education. The close inter-relation between life and education, much closer than ever before in the world's history is being forced upon even such staid institutions of classical learning as Yale, Harvard, Vassar and Wellesley, where the youth of today are insisting upon at least a certain amount of vocational training. Education and educational ideals are undergoing profound changes. Everywhere is evident the earnest intention of youth, girls as well as boys, of preparing for a productive vocation productive both of a living and a life.

The old idea that pleasure may be derived only from non-productive, non-useful occupations is being supplanted by the dynamic idea that happiness may and should be a natural outgrowth of one's choice of a congenial occupation, one for which he is fitted by nature, one for which he has trained himself.

Finally there are the two kinds of choices, the romantic choice, and the vocational choice and it is for parents and educators to clear up the "dram fogs" and help youth make true vocational choice at the right time in his life. Ours is the responsibility of helping the youth to choose wisely the vocation he is to follow, so that the occupation of man in the future will not be his limitation but his opportunity for the larger life.

The girls glee club sang two selections, "Out in the Field With God," and "An Orchard Lullaby." Both groups were under the direction of Miss Jenkins.

At the close of the program refreshments were served in the cafeteria.

CHAS. DE SELLE HAS BIRTHDAY

The anniversary of Charles de Selle's natal day was the incentive for a happy social gathering at his home on Second street last Saturday evening, in which about 30 relatives and friends from Campbell and San Jose participated. The affair demonstrated once more that a woman can keep a secret when she wants to, for the coming of the guests was a complete surprise to Mr. DeSelle as his wife planned that it should be. Progressive whist was the diversion of the evening and at the close of the game it was found that Earl Eddlemon held high score and Mrs. W. T. Alexander drew the consolation award. An elaborate supper, including a beautifully decorated birthday cake was served at midnight after which the guests departed for their various homes. Mr. DeSelle was presented with a number of gifts and the hearty congratulations of all present.

The members of the Congregational Church choir and friends will enjoy another of their social evenings Saturday at the manse as guests of Rev. and Mrs. J. H. Benneett and Mrs. Mills.

GUESTS SURPRISED AT BIRTHDAY PARTY

Miss Elsie Merrill celebrated a most unique anniversary Saturday afternoon when she planed a surprise birthday party for a few friends. Inviting the young ladies to don hiking clothes and bring an extra wrap filled all with curiosity and excitement. They were loaded into autos with Miss Louise Mahan as chaperone and the caravan took a circuitous route toward Alviso, that being a seaport town. On their arrival, what should they find there but a full rigged launch manned by three husky Sea Scouts and Captain Gene Grattan.

The barque put out to sea and all proved to be fine sailors.

Dainty basket lunches had been prepared by the unsuspecting girls, who later found they had brought none too much.

It was the first experience of its kind to some but all voted it one of the "bestest we ever had."

BETROTHAL ANNOUNCED

Miss Wilma Smith and S. Major King have announced their engagement. Miss Smith is the daughter of Mr. and Mrs. H. C. Smith of Campbell. Mr. King came from Dallas, Texas, about a year ago and has a responsible position with the Spring Co. Store in San Jose.

Quotations from Hall of Fame

"The best charity in the world is to give people the chance to earn their way through life by useful work."
—Henry Ford.

* * * * * * *

Politeness has been well defined as benevolence in small things. Magulay

* * * * * * *

The greatest grace of a gift, perhaps, is that it anticipates and admits of no return. —Longfellow.

* * * * * * *

Life is not a goblet to be drained; it is a measure to be filled. Hadley.

* * * * * * *

All the world's a stage,
And all the men and women merely players.
—Shakespeare.

* * * * * * *

Civilization is not going to advance very far so long as any considerable body of fellow countrymen find enjoyment in the quite unnecessary suffering of their fellow creatures.
Dr. Walter Walsh.

* * * * * * *

In a democracy the people should understand the wisdom and justification of the laws they are asked to obey.
William G. McAdoo.

KIWANIANS URGED TO USE FRANCHISE

Vote as you please, but vote, is the message sent out by Kiwanis International to all its 1633 clubs in the United States as the primary, special and general elections draw near.

"One of the objectives of the organization is to promote an intelligent, aggressive and serviceable citizenship, and this can be accomplished by securing a universal exercise of the franchise," says J. L. Johns of Appleton, Wisconsin, chairman of the committee on public affairs for the United States.

"Remember our government is a representative form of government and that our last president was elected by a minority vote of the electorate. This, in time, will do away with representative government. We owe it first of all to be good citizens of our country. This can be accomplished by taking an active part in the welfare of our government," says Mr. Johns.

Kiwanis clubs during the next months will be busy in bringing information about election laws, general registration and voting qualifications to all residents. In many communities on election day, telephone operators will be engaged to call voters to inform them about voting hours and the location of polls.

Campbell Congregation Church
Rev. J. H. Bennett, Pastor

Next Sunday at 11 a. m., preacher Rev. J. H. Bennett. Subject "The Meaning of the Story of Jonah." Children's talk on great ideas, "The Works of the Lords."

6:30 p. m.—Christian Endeavor meeting. Open to all younger men and women. Subject: 'Hinduism.' Led by Mr. Bennett.

At 7:30 p. m.—Stereopticon slides on "Hinduism." Wonderful pictures from the American Missionary Board.

Trespassers Warned

The work on the high pressure tower for the Campbell Water Company is practically completed and is expected to be ready for service next week. Now that the tower is up there is a great temptation for the boys of the community to climb to the top. The risk is too great and the management makes the statement that no trespassing will be allowed and prosecutions may follow if boys do not comply with company orders.

To Elect Directors

Monday, April 16, the Country Woman's Club will meet; business session at 2:30 p. m. at which a report of the nominating committee will be given. Program at 3 o'clock. One feature will be a talk on the "Art of Russian Dancing" by Mrs. Mazurova George, a recent citizen of the Union of Socialistic Soviet Republics(formerly Russia). Visitors will be welcome.

Memorandum books at Smiths.

Methodist Episcopal Church
W. C. Robins, Pastor

Sunday, April 15.—At 11. Worship with sermon by pastor, topic, "After Easter Experience Quartette will sing, "God is a Spirit," by Bennett.

At 7:30—Rev. Frank Flegal of San Francisco will give an illustrated address on "The Goodwill Industries." This is one of our great philanthropies. Learn about it. The pictures will tell the story. Solo, Mrs. A. G. Phillips. Bible School opens at 9:45, with classes for all grades of scholars. A good program.

Wednesday — Prayer, fellowship and Bible study.

Thursday, 19th.—Ladies Aid Society will meet.

Percentage Saving

IF THE family budget system breaks down under the strain of excessive bookkeeping, recourse may be had to percentage saving. The plan is simple, effective, and certain of results. It consists of saving a certain percentage of income each month and depositing the money in an American Trust Company Savings account. Saving ten per cent of income is possible for most families. Funds are rapidly accumulated under this arrangement, and four per cent interest, compounded semi-annually, automatically builds up the balances.

Town Tales Tersely Told

L. C. Ralston was a business visitor from Oakland Tuesday. Louis is looking fine and said he feels much better.

Mr. and Mrs. Clyde Glass (nee Dorothea Smith) arrived Sunday for a visit with Mrs. Ellen R. Smith and other relatives.

Mr. and Mrs. J. J. Pardee are the proud grandparents of a granddaughter, born Wednesday, April 4, at Sacramento, to Mr. and Mrs. J. N. Pardee.

C. H. Whitman's one of the Winchester stores of the county, is conducting a special feature sale of hardware articles that offers these goods at a considerable saving.

Mrs. Jerome Q. Pollard, who was enroute from Pasadena, where she had been visiting her daughter to her home in Ashland, Oreg., was a week-end guest of Mrs. C. H. Whitman. The two ladies were friends in their former home at Centerville, S. D.

C. T. Fawcett has completed a novel piece of wood work to be installed in the new C. B. Field Store. This is a large nail case and counter fifteen feet long, with 48 nail drawers, with a most convenient arrangement for the efficient service of the public. It will probably be installed for service Monday.

Grammar Operetta

On Friday evening, April 27, 1928, the Campbell Union Grammar School is presenting the popular operetta "Penny Buns and Roses." An unusual performance is expected as the entire school is co-operating to produce one musical fantasy in place of the seperate primary and upper grade operettas which have been presented hitherto.

Wherever this play has been produced it has been highly acclaimed due to the elaborate costumes and novel stage settings.

You are assured of an interesting and enjoyable evening's entertainment. Reserve the date.

Another one of those popular grange good-eats food sales at Lea's Grocery tomorrow (Saturday)

The Library Building Fund show set for April 20th promises to be a real treat for its audience. Arrangements are practically completed and the various numbers are well prepared. Aside from getting your money's worth, you will be assisting in a worthy cause. Reserve your seats at once as the sale is big.

Next Men's Fellowship Supper April 25. Supper 50 cents. Provision will be made for 100. Keep the date clear. Speaker from the League of Nations Association. Special music will be arranged. When you hear from Rev. Bennett please reply early. All men are invited. We only need to know.

LUCRETIA MC CAUGHEY LAID TO REST

Mrs. Lucretia McCaughey passed away at her home on Sunnyside avenue Tuesday following a paralytic stroke early Sunday morning.

Mrs. McCaughey was born near Millersburg, Ohio, Jan. 1, 1844, being 84 years, 3 months and 10 days old at her death. Her mother was the first white child born in the then wild frontier of Ohio. On October 13, 1870, she was married to W. C. McCaughey and they lived on their farm until 1891 coming to Campbell. With the exception of five years spent at Merced they had lived here. Mr. McCauhgey passed on last year. Of the family there survives B. L. and W. G. McCauhgey and Elena Robinson all of Campbell. These were at the bedside Tuesday. The oldest child R. H. McCauhgey died in Arizona about 10 years ago.

Mrs. McCauhgey was a most earnest christian worker and member of the Congregational Church until her age and health compelled her to remain at home. Her faithfulness to her church and friends made her a most loveable character and one that has stamped its sweet influence on all who knew her.

The funeral was held yesterday afternoon from the Melvin Parlors at Los Gatos, Rev. W. E. Eckles and Rev. J. H. Bennett having the service. Music was furnished by Mrs. W. Grattan, Mrs. J. D. Blaine, H. C. Smith and Dr. W. I. Merrill.

The pall bearers were: G. R. Merriman, L. R. Austin, C. W. Cobb, G. A. Whipple, J. G. Burns, A. B. Townsend. Interment was at Los Gatos Cemetery.

Campbell Hatcheries shipped 60,000 day-old chicks Monday, which is probably the largest shipping to leave this point in one day. About 200,000 was the shipment for the week.

Mrs. L. Harbidge returned Sunday from a week's vacation spent in touring the southern part of the State, where she visited the interesting places at Los Angeles, San Diego and Tia Juana.

Mrs. D. W. Van Arsdell and children were visiting Mrs. Ethel Davis last week. Over the weekend. Mrs. Van Arsdell, Miss Mary Feathers and Wayne Davis had a most enjoyable outing in Yosemite Park.

Lulu Murdock, who had been spending Easter week with her mother, Mrs. M. J. Murdock, returned to Sabastopol Monday. She was accompanied by her grandmother, Mrs. S. L. Richardson, who will visit there for a time.

Mr. and Mrs. Ben Critchlow of San Jose, and Mrs. Susie Christenson of Oakland, cousins of Mrs. C. H. Whitman and Mrs. Jerome Pollard of Ashland, Oreg., were dinner guests of Mr. and Mrs. C. H. Whitman Friday evening in honor of "Chauncey's" birthday.

Kenneth Knoff, son of Mr. and Mrs. M. M. Knoff, was home for his spring vacation. Kenneth is a student at the State University at Reno and upon his graduation in the spring will go to Pittsburg Penn., where he has been offered a position with the Westinghouse Electric Company.

Ada Rebekah Lodge is giving a basket social on the night of April 17 at 8:30 for Odd Fellows and their wives, Rebekahs and their husbands. Ladies please bring basket lunch for two. All Rebekahs and Odd Fellows welcome. Luncheon will be provided for extra gentlemen.

The Orland Orange Growers' Association, Glenn county, at its annual meeting last week reported that better than $80,000 business was done during the past season. A total of 18,564 packed boxes was shipped.

Sugar beets should be planted in rows eighteen inches apart and thinned to a distance of twelve inches in the row. This is according to Dr. W. W. Robbins of the botany division at the college of agriculture. Experience and experimentation have taught, says Dr. Robbins, that 216 square inches per beet gives the maximum yield. With the beets thus planted and averaging twenty ounces in weight, the yield per acre will be 18.5 tons. Thinned to fourteen inches, the yield would be 15.56 tons; to sixteen inches, 13.61 tons.

Sea Scouts Tour

Continued from Page One

of the prettiest craft in the bay region. We saw the houseboats where Jack London lived while writing his books. The next thing attracting our attention was a blue roof behind some trees apparently right on the edge of the water. It proved to be the headquarters of the University of California racing crew. We passed on through the many sights till we reached the Eolean Yacht Club. Here are many of the fastest boats in the bay region. This club is at the end of the estuary so we bid Oakland farewell and set our course for Point San Mateo until five bells when we ran aground. As the gasoline was running low two of us rowed the tender into Redwood City, a distance of three miles for gas. We landed at the huge plant of the Portland Cement Company. After getting our fuel we returned to the ship, getting there about one bell. We were afloat by then and we got under way immediately. We passed under the Dumbarton Bridge at five bells and anchored on familiar territory in the slough at seven bells. We weighed anchor at two bells and docked at Alviso at one bell. After thoroughly cleaning ship we disembarked. This trip is the best one we have had so far. The crew did nearly all of the navigating so we gained much good experience.

The ship's company was as fol-lows: Captain, Eugene Gratton; first mate, Elwood Swane; second mate, Elwyn Overshiner; ordinary seamen, Alfred Beer, Elmer Sundquist; apprentice seamen, Noel Voge, Lloyd Brown, George Stubbe, Henry Ruthneck, Albert Johansson and Harris Gardner.

Those stations are given before ach cruise by the skipper, Worthen Grattan, so that each boy can get some experience as an officer and in the various phases of seamanship. —Elwood Swane.

A number of prominent orange packers are sponsoring the second annual world championship orange packing contest, which is to take place at the Eighth Annual California Valencia Orange Show, at Anaheim, May 24 to June 3. A committee is now at work drawing up rules for this year's contest, which will probably be worked out much the same as last year's.

Food values to be found in raisins are to be stressed during the annual observance of National Raisin Week, which is scheduled for April 23 to 28, next. The final day will be "Raisin Day" with a great celebration, the California Raisin Festival at Fresno. A feature will be the "Pageant of Jewels," the event that attracted nation-wide attention last year.

California's raisin crops last year amounted to 285,000 tons, enough raisins to load to capacity 5700 freight cars, which would make 114 ordinary trains and which if placed in one train would be about fifty-four miles long. Made into pies the raisins would provide sufficient "filling" for 1,140,000,000 pies, sufficient to give each person in the United States ten pies.

An interesting survey of dairying in Colusa County has just been completed by Herbert E. Barker, assistant farm adviser There are 5,445 iows in Colusa County, this being a slight increase over a previous survey. Only 3,678 of this number are mature animals. Colusa, Maxwell and Prinieton are the largest dairy districts, with a cow population of 1,809, 1,302 and 1,107 respectively.

Favorable weather conditions the past few days indicate there will be a large pear crop in Placer county this year, unless there is a hard frost in the next few days. The recent storm stopped just soon enough to permit proper pollination among the pears. Pears and plums are well set, and it is considered probable that the cherry crop will mature earlier than last year, when the ffrst China cherries were shipped East on April 28th, an exceedingly late date.

The job of hatching 500,000,000 tiny wasps from larvae left inside the mamme Calmyrna figs on California trees is now under way at Visalia and the wasps are being returned to their respective fig trees for use in pollinating. It is considered by experts one of the most unusual scientific applications for the benefit of horticulture ever undertaken in the State. Weeks ago growers engaged in the task of helping the State Department of Agriculture wipe out the dreaded split fig disease in the Calmyrna crop, began delivering the season's last figs to Fresno. Several hundred tons were thus delivered, each fig having the larvae of the blastophaga wasp within. The larvae were taken out, disinfected and the wasps hatched artificially. They were placed in tubes and are now being sent back to the Calmyrna trees clean of all diseases.

For Service, Phone 129

Service
from the customer's viewpoint.....

THIS recognized fundamental of successful modern business is largely measured by the satisfaction of those it serves—assurance of honest value, prompt delivery, personal attention to special requirements or adjustments and countless other qualities in service. In the mass distribution and speed of today, many of these qualities of service may easily be pushed aside to the detriment of customer relationships.

Individual contact expressing personal interest is recognized as an important factor in service *from the customer's viewpoint*—and anything that can be done by personal contact can usually be done better by telephone because it's quicker and costs less.

Personalize business relations—depend on your telephone

Angel food cakes! easy to make

When grandmother made angel food cakes the recipes of her day were inaccurate. It took years to know her oven.

But today, when you accurately measure and mix ingredients, you believe your cakes should always be good.

They will be, unless you're guessing at the oven temperature which is the chief cause of rubbery angel food cakes. They must be baked at 325 degrees.

All the modern gas ranges have the Oven Temperature Control. It keeps the oven at exactly the temperature for which it is set. You place the angal food cake in the oven, set the Control for 325 degrees and leave the kitchen for an hour. The monotony of watching the baking vanishes. Meats, pies, and even a whole meal can also be baked with the same ease and freedom.

See the modern gas ranges with the Oven Temperature Control.

WHAT FARM ACCOUNTING MEANT IN THE MANAGEMENT OF A FARM

Successful Farmer Tells How Pencil Helped Guide His Operations and Swell His Income—An Aid to Better Credit—Shows Profits and Prevents Losses.

THE owner and operator of one of the most successful dairy farms in Wisconsin prepared recently for the Agricultural Commission of the American Bankers Association a first hand statement of the part farm accounting has played in the management of his enterprise. This operator, W. J. Dougan, tells the following story:

"When I started farming I began keeping a simple cash account, but soon found that it was not sufficient accounting for farm purposes. Such a record did not take into consideration the vital factors of improvements, growth of livestock or depreciation.

"Since 1910 I have kept a complete account on the accrual basis. The accounts, however, are no more than any farmer can easily keep. The outstanding benefits from keeping such accounts might be listed as follows:

The Way It Works

"1. Income tax reports made easier.—Accurate and dependable income tax reports can be made from the yearly accounts. By keeping them on file I am always ready to satisfy the tax inspectors.

"2. Accounting makes possible a budget system.—With the accumulated data of the past years, I can make out the budget for the coming year. The income being fairly stable, the budget problem is to adjust the expenditures. If one branch of the business will need extraordinary expenditure such as new machinery, there must be a cut in some other branch, such as building or livestock purchased, or fencing.

"3. Accounting gives a true basis for credit.—Especially has accounting meant for me larger credit and happy relations with my banker. With a complete financial statement before him the banker can intelligently determine what credit I should have. With a full knowledge of the farm profits in the past, I know what credit I should accept. No farmer or business man should accept credit from his bank unless he is able to put the money into productive investment, and his margin of profit assures the ability to repay the loan within a reasonable time.

"For the farm this reasonable time cannot be three or six months. The farm turnover is too slow for that. A helpful and just period of farm credit for working capital must be from one to four years.

"There is another benefit from accounting—the benefit of knowing whether one is going up or down. By extra sales one might be flush of money and buy heavily, thinking he is coming out ahead, but in reality he is sacrificing the future. On the other hand, one might feel pinched, and have little money to spend, but in reality he is laying up capital."

The bankers Agricultural Commission has suggested the following form of farm credit statement, indicating the records necessary to be kept:

Chamber of Commerce, Monday.

Plans for construction and operation of a cannery by peach growers of the Chico district were discussed at a meeting held at Chico last week. As a result a committee will study methods and types of canneries in the Sacramento Valley before concrete action is taken.

California Farm Bureau lawyers have been authorized to file protests with the Water Commission at Sacramento for Napa county farmers, objecting to diversion of Conn Creek by a $5,000,000 project to supply water to Carquinez Straits Industries. J. J. Deuel and Edson Abel, farm bureau lawyers, at a meeting held at Napa last week, advised the farmers to petition for an injunction to halt the work on the diversion dam until an irrigation agreement is reached.

NOTICE OF TRUSTEE'S SALE

NOTICE IS HEREBY GIVEN that default having been made in the payment of the sums secured by that certain Deed of Trust executed by G. Cancilla, Rosalia Cancilla, his wife; V. F. Cancilla and Anna Cancilla, his wife, as Trustors, to Robert R. Syer, as Trustee, and Stephen J. Mascovich and Bessie L. Mascovich, or either of them, as Beneficiaries, dated the 1st day of March, A. D. 1924,, and recorded in the office of the County Recorder of the County of Santa Clara, State of California, in Volume 85 of Official Records at page 243 et seq.:

And application in writing having been made to the undersigned, as Trustee under said Deed of Trust, by said Stephen J. Mascovich and Bessie L. Mascovich, the owners and holders of said indebtedness and Deed of Trust securing the same, that said undersigned sell the premises by said Deed of Trust conveyed, and hereinafter described, as by said Deed of Trust provided:

NOW, THEREFORE, The undersigned Trustee will, on Saturday, the 5th day of May, A. D. 1928, at the hour of 9:15 A. M. of that day, at the front door of the County Court House of Santa Clara County, in the City of San Jose, County of Santa Clara, State of California, in pursuance of the provisions of said Deed of Trust, sell at public auction, to the highest bidder, for cash in lawful money of the United States, the land and premises situate in the County of Santa Clara, State of California, described as follows:

1. BEGINNING at a stake marked Q1 standing in the West line of the Santa Cruz Road at the S. E. corner of the County Infirmary Tract and at the N. E. corner of that certain 34.36 acre tract, part of S.E. ¼ of N.E. ¼ of Sec. 23, Township 7 S. R. 1 W. M.D.M., conveyed by the County of Santa Clara to Chas. F. Bopp by Deed of April 8, 1884, and recorded in Book 72 of Deeds, page 396, in the office of the County Recorder of Santa Clara County, said stake standing at the foot of and on the S. E. side of a locust tree now 12 inches in diameter and marked B. T. Q. 1 and said stake being distant N. 0° 13' W. 17.41 chs. from the point of intersection of said West line of the Santa Cruz Road with the ¼ Section line running East and West through said Section 23 and running thence along said West line of said Santa Cruz Road S. 0° 13' E. 6.18 chs. to a stake marked B; thence leaving said road line and running midway between two rows of orchard trees N. 89° 51' W. 19.72 chs. to a stake marked B. 1 standing in the fence line now defining the Western line of said 34.36 acre tract and of the S. E. ¼ of the N. E. ¼ of said Section 23 and from which stake the Southwestern corner of the aforesaid 34.36 acre tract bears S. 0° 8' E. 11.23 chs. thence along said Western line of said 34.36 acre tract N. 0° 8' W. 6.23 chs. to a stake marked Q. 4 at the Northwesternmost corner of said 34.36 acre tract and S. W. corner of the present County Infirmary Tract and thence along the North line of said 34.36 acre tract and South line of said County Infirmary Tract S. 89° 43' E. 19.70 chs. to the point of beginning. Containing 12.23 acres and being the Northern 12.23 acres of the aforesaid 34.36 acre tract in the Southeast ¼ of N. E. ¼ of Section 23, Township 7 S., R. 1 W., M. D. M., conveyed by the County of Santa Clara to Chas. F. Bopp by Deed of April 8, 1884, and recorded in Book 72 of Deeds, page 396, in the office of the County Recorder of said Santa Clara County Courses true. Var. 17° E.

2. BEGINNING at a stake marked "G" standing at the Southeast corner of land now or formerly of Seybolt and distant South 89° 51' E. 5.09 chains from the ¼ section corner in center of Section 23, Township 7 South, Range 1 West, M. D. M., and running thence along the ¼ section line running East and West through the center of Section 23, S. 89° 51' E. 14.95 chains to a corner of fence at the Southeast corner of the 59.26 acre tract formerly of Mrs. Gruwell; thence along the fence line on the East side of said 59.26 acre tract N. 0° 8' W. 9.57 chains to a stake marked B 1 standing at the Southeast corner of Lot 3 of the Subdivision of said 59.26 acre tract; thence along the South line of Lots 3, 2, and 1 of the Gruwell Subdivision of said 59.26 acre tract, S. 89° 49' W. 14.95 chains to the intersection with the East line of land now or formerly of Seybolt; thence along the East fence line of said land S. 0° 8' E. 9.52 chains to the place of beginning, containing 14.26 acres and being a part of the West one-half of the North East one-quarter of Section 23, Township 7 South, Range 1 West, M. D. M. Courses true. Var. 16° 45' E. and being Lot 4 of the Gruwell Subdivision of the 59.26 acres of Mrs. Gruwell in said West ½ of the Northeast ¼ of Section 23, Township 7 South, Range 1 West; also a right of way 20 feet wide over the Easterly 20 feet in width of Lot 3 of the Gruwell Subdivision from Lot 4 of said Subdivision Northerly along the Easterly line of Lot 3 of said Subdivision to the County Road known as the Gruwell Road, also known as Moorpark Avenue, also including all water rights appurtenant to or used with said premises.

Subject to all taxes levied or assessed against said property.

Terms of sale: Cash in lawful money of the United States, ten per cent. payable at time of sale, balance on delivery of Deed, and if not so paid, unless on account of defective title, said ten per cent. to be forfeited and sale to be void. Acts of sale at purchaser's expense.

Dated April 4th, A. D. 1928.

ROBERT R. SYER, Trustee.

L. F. Jones, residing at Rincon Avenue Campbell, California.
STATE OF CALIFORNIA, County of Santa Clara, ss.

On this first day of March, in the year one thousand nine hundred and twenty eight, before me, R. F. Robertson, a Notary Public in and for the County of Santa Clara, State of California, personally appeared L. F. Jones, known to me to be the person whose name is subscribed to the within instrument, and acknowledged to me that he executed the same.

(Seal) R. F. ROBERTSON,
Notary Public in and for the County of Santa Clara, State of California.
